Work Experience

Responsibilities:

- Developed web applications using front-end languages such as HTML, CSS, JavaScript(JS), and familiarity with frameworks such as ReactJS,NextJS and jquery
- As a developer with experience in React Hooks, I have the ability to write efficient and reusable code using the latest features ofReact. With React Hooks and Redux , I can add state and life-cycle methods to functional components without the need for classcomponents, resulting in simpler and more modular code. This skill set makes me a valuable asset to any React project.
- Collecting data from client-side(csv or excel) creating database for all the websites and handling all for data manipulation. Continuous Integration/Deployment Pipeline Integration using AWS S3 bucket, pull requests, code review.
- Experience in building responsive and creative designs with good performance ,optimized size by using free source code,software and Apis .Understanding troubleshooting and debugging: Identifying and resolving technical issues and bugs thatmay arise during the development process.

Houzbay Consulting pvt ltd.   Aug 2023 - Present

React Frontend Developer

- Collaborated with the development team to design and implement new features for a customer-facing web application, resultingin a 20% increase in user engagement.
- Utilized React and Redux for state management to enhance the application's responsiveness and user interface. Implemented RESTful API integrations to fetch and display dynamic data, optimizing the application's performance.
- Conducted code reviews and provided constructive feedback to team members, ensuring code quality and adherence to best practices.Worked closely with UI/UX designers to translate design mockups into responsive and visually appealing web pages.

Ceyone Marketing Pvt Ltd.   Feb 2021 - Jul 2023

Web Application Developer

- Developed and maintained dynamic web applications using a combination of React ,Node.js and PHP , resulting in a 25% increase in user engagement. Collaborated with UX/UI designers to implement responsive and visually appealing front-end solutions that enhanced the overall user experience.
- Designed and implemented RESTful APIs, improving the efficiency and scalability of the backend services. Conducted code reviews and provided constructive feedback to ensure code quality, consistency, and adherence to best practices.
- Collaborated with cross-functional teams to understand business requirements and translate them into technical specifications.
- Contributed to the development of a customer portal, integrating front-end and back-end components to deliver a seamless userexperience.Implemented database solutions using Mysql,MongoDB, optimizing data retrieval and storage processes.

Leadership Activities

- Led cross-functional development teams on web application projects from concept to launch.
- Developed and executed project plans, timelines, and budgets to ensure successful project delivery.
- Mentored junior developers and provided technical guidance and training on coding best practices,co-ordinate with team, testing,and deployment.
- Conducted code reviews and provided constructive feedback to improve the build quality and maintainability of the code base.

Education

Bachelor of Technology   Kalam Institute Of Technology (BPUT)   *Berhampur,Odisha*   Aug 2016-April 2019

- Electronics and communication engineering (Activities and societies: Under top 10% from batch)

Projects

- **Article Summarizer:** *(REACT,Tailwind,Redux Toolkit,JAVASCRIPT,RapidAPI)*
  [Github-link: https://github.com/sanujasethi06/ai-article-summarizer]
- **Uber clone:** *(Nextjs,Clerk authentication,Tailwind,Google map API,Stripe payment)*
  [Github-link: https://github.com/sanujasethi06/Uber-clone]

- **Gallery Gleam (A photo album app):** *(Nextjs,cloudinary,Typescript,Tailwind,Shadcn)*
  [Github-link: https://github.com/sanujasethi06/image-gallery-app]
- **MoviFlix:** *(NextJs,Tailwind,Mongodb, and NodeJS)*
  [Github-link: https://github.com/sanujasethi06/moviflixapp]
- **Weather App:** *(HTML,Chakra UI CSS,REACT,JAVASCRIPT,Weather API)*
  [Github-link: https://github.com/sanujasethi06/weather-forecast]
- **Ecommerce App: :** *(HTML,Tailwind CSS,REACT,JAVASCRIPT,Fake Store API)*
  [Github-link: https://github.com/sanujasethi06/MyEshop]
- **News App: :** *(HTML,CSS,REACT,JAVASCRIPT,NEWS API)*
  [Github-link: https://github.com/sanujasethi06/Newsapp]
